FOR IMMEDIATE RELEASE: December 28, 2001

RE: Ohio's Home Sale Activity Report – November 2001

**Home sales throughout Ohio, on the heels of strong activity in November, maintained a near record-breaking pace for the year, reports the Ohio Association of REALTORS<sup>®</sup>.**

“The favorable conditions that have existed in the housing sector throughout the year— attractive interest rates, an ample supply of housing in every price category and resilient consumer confidence—have contributed to an extraordinarily robust marketplace,” said OAR President Terry Hankner. “While other segments of our economy have slowed, the housing market in Ohio and throughout the nation has remained vibrant. It’s a clear indication that the American Dream of homeownership is still appealing.”

Statewide sales of new and existing homes total 101,042 this year (January-November), a 2.1 percent increase from the pace of 99,006 sales posted during the 11-month period in 2000.

Additionally, the state’s average sales price of \$141,011 through November 2001 marks a 2.4 percent increase from the \$137,699 level of a year ago. The total dollar volume of \$14.2 billion is 4.5 percent ahead of the 2000 mark of \$13.6 billion.

Sales activity in November 2001 reached 8,254, a 1.4 percent increase from the 8,137 sales during the month a year ago. November’s average sales price reached \$139,043, a 0.4 percent increase from the \$138,480 mark posted during the month a year ago.

The 30,000-member Ohio Association of REALTORS<sup>®</sup>, the largest professional trade organization in the state, calculates its home sale figures based on statistics provided by the Multiple Listing Services (MLS) throughout Ohio. Participating MLSes include: Cincinnati, Columbus, Centralized Real Estate Information Services, Dayton, Firelands, Heartland, Knox, Lancaster, Licking, Mansfield, Marion, Northern Ohio Regional Multiple Listing Service, Scioto Valley, Toledo, West Central and Western Regional Information Systems & Technology. Figures include both new and existing home sales, including single-family and condominiums.

*{NOTE: There might be a slight variance between the reported number of sales contained in this release and actual activity in the various markets due to OAR’s early reporting requirement. Check with contacts in the particular market.}*
