

Ohio REALTORS Legal Counsel Peg Ritenour delivers in this [exciting recorded webinar](#) on handling multiple offers without losing your mind...or your license!

This unique recorded webinar features:

- Multiple offer do's and don'ts;
- How texts and emails can bind your client;
- Two or more clients want the same house...now what?;
- Problem solve before an offer is written!

Today's market is crazy! Low interest rates combined with low inventory levels has resulted in an increasing number of buyers competing for the same limited number of properties. One broker reported receiving 60 offers on a listing in two days!! While this may seem great for sellers, it can be overwhelming for listing agents and the seller. It is also leaving anxious buyers frustrated and upset at losing out on their dream house.

Moreover, many REALTORS are having to deal with fast paced negotiations and are unsure how to handle multiple offer situations properly, especially when representing

multiple buyers. Ohio license law, the Code of Ethics, the MLS rules and contract law all play a part in how multiple offers must be handled. From disclosing multiple offers, to acceleration clauses and signature issues, this jam packed webinar will give you the foundation you need to deal with the issues involved in representing your clients in today's crazy market.
